MESSAGE

DR. VEDPRAKASH MISHRA

Hon'ble Chancellor

It gives me immense pleasure, satisfaction and heartening to note that **Annual Report** of the Krishna Institute of Medical Sciences (Deemed to be University), Karad is being brought out for the **Academic Year 2018-19**, which covers the entire '**plethora**' of happenings in the said year specially incorporating there under the various initiatives undertaken with relevant authorities towards the mitigation of the concerns and challenges and the same would be a '**handy referral piece**' of reading of all the '**relevant informational details**', which are of '**consequence and relevance**'.

The '**Annual Report**' also operationally turns out to be a mirror reflection of the '**happenings and doings**' by the various constituent colleges under the ambit of the University. It brings out their '**creative and committed**' activities in various domains, which pertain to teaching and learning, research, extension and also sustainable development of the society, as a whole.

An institution of higher learning cannot afford to have an '**ivory tower image**' for themselves because that would amount to they being chopped and severed off from the '**societal obligations**' and '**ground realities**' thereto.

Krishna Institute of Medical Sciences (Deemed to be University), Karad with its constituent units is committed to catering to the '**cause**' of society in an '**exemplary**' manner, so as to render the best that is expected and desired out of it. The Annual Report categorically brings out this very aspect of commitment of the University to the larger societal good with a sense of accountable responsibility.

I record my sincere appreciation for the Editorial Board and their team for untiring efforts in '**actualizing**' the same.

GROWTH STATEMENT

DR. MRS. NEELIMA A. MALIK

Hon'ble Vice-Chancellor

All of the great achievers of the past have been visionary figures; they were men and women who projected into the future. They thought of what could be, rather than what already was, and then they moved themselves into action, to bring these things into fruition

~ Bob Proctor.

It is with immense pride to note that the seed sown and nurtured by such a great visionary philanthropist "our Honourable founder, and first Hon'ble Chancellor Late Shri. Jaywantraoji Bhosale", has today blossomed into a canopy of Krishna Institute of Medical Sciences "Deemed to be University" that provides education, healthcare and an improved quality of life to the rural population of Western Maharashtra. JAYWANT 'TRIPLE I' INCUBATION CENTRE

On 2nd October, 2018, Krishna Institute of Medical Sciences “Deemed to be University’s” JAYWANT 'Triple I' Incubation Centre (Innovation, Integration & Implementation) was inaugurated and established. The primary aim of this centre is to sensitize students and faculty members about the use of various aspects of technology to create some innovations, which shall be useful for health care. And also to bring together Researchers, Doctors, Scientists, Scholars and Students from different streams in the campus along with Engineering and Technology students and experts.

Ultimate goal is to provide a forum for the dissemination of original research results, new ideas, Research and development, practical experiments, which concentrate on technology-driven innovations, start-ups and creative business ideas.

Under the aegis of this incubation centre, many workshops related to IPR (Intellectual Property Rights) were held throughout the year and related training and guidance and financial assistance was offered to bring about innovations. It has resulted in getting many patents, trademarks and copyrights and the momentum has set to continue the trend for years together.
