MENTORSHIP PROGRAMME

The word mentor means a trusted advisor. Mentoring is a life long process that has a significant and meaningful role in career building and development of the mentee.

Medical students enter the medical college at a raw age in our country. This age is a formative and impressionable age. Medical students face an enormously stressful environment and this can affect their academic performance and health. In order to combat this stressful life they should have an experienced person to whom they can look for help, guidance, counseling and supervision. Good teachers have a great influence on student's personal and professional growth and development.

Mentorship Program Objectives:

- To provide outlet and solutions to students problems.
- To provide moral support for good professional and personal development of students.
- To provide a friendly and stress free atmosphere for students.

Activities:

- Review of attendance and performance of students every term.
- Helping low performers by counseling.
- Appreciation of achievements of students.
- Solving educational and other problems of students.

PARTICIPATION IN OTHER ACTIVITIES

MENTORSHIP PROGRAMME

Medical professional studies are summarily different from Art, Science and Engineering courses.

These courses, as per regulations of the Apical Councils are resident in character. The students are required to put up hard physical and mental labour, therefore these studies become exhaustive in nature. Moreover, students come from different geographical and social backgrounds that are required to be transformed into a different professional culture.

All these factors, coupled with high expectations of the teachers and neophobia, generate lot of anxiety. Mentorship program is designed to circumvent all these issues and mould the students to the expectations and needs of the profession and community.

Mentorship program has been introduced in this institution with the following objectives -

- * To provide vent and solutions to the problems of students.
- * To provide moral and psychological support.
- * To provide student friendly ambience.

ACTIVITIES -

- * Monthly student - mentor meeting.
- * Students attendance review.
- * Review of the progress in examination.
- * Identification of low performers and their referral to student's guidance unit.
- * Solving student's academic and non academic difficulties.

EXPECTED ACHIEVEMENTS -

- * Horizontal Equanimity.
- * Strengthening of bond and belonging to the institution.

MENTORSHIP BOOKLET

2022 - 2023

98

Name of Student : Jadhav Eshwari Ajaykumar.

Course : B. Pharmacy.

Semester : 1/2/3/4/5/6/7/8

KRISHNA INSTITUTE OF PHARMACY, KARAD.

VISION, MISSION AND PROGRAM EDUCATIONAL OBJECTIVES (PEO'S)

VISION

To be recognized as a premier academic institution imparting excellent pharmaceutical education and research.

MISSION

To offer quality pharmaceutical education, to create healthcare professionals with requisite skills, knowledge, research aptitude, values and ethics ensuring rewarding careers.

- * **M1. Quality Pharmaceutical Education:** To offer outcome based pharmaceutical education to produce qualified and competent pharmacists of International standards
- * **M2. Competent Pharmacist:** To create competent pharmacist with requisite skills, knowledge, innovative thinking, Research aptitude and having professional excellence.
- * **M3. Rewarding Career:** To impart strong ethical values and good Professional behavior, so as to undertake rewarding career in a pharmacy profession, tailor-made to meet stringent requirements of pharmaceutical industry.

PROGRAMME EDUCATIONAL OBJECTIVES (PEO'S)

Our program will produce graduates who

1. Are competent in the pharmaceutical field & highly valued professionals in pharmaceutical industry, research, marketing & academics.
2. Are competent industrial pharmacists who can manufacture quality dosage forms & evaluate them.
3. Are able to apply pharmacokinetic principles & work independently & also as a member of team making efficient use of time & resources.
4. Are *extraordinary talents* and backed by reasoning, sets high standards in achieving global accomplishments.
5. Are having oral & written communication skills, leadership skills & have high moral & ethical
